The Honorable Julie A. Su
Acting Secretary
U.S. Department of Labor
200 Constitution Avenue, NW
Washington, DC 20210

Dear Acting Secretary Su:

On October 11, 2023, I wrote to the White House and the Department of Labor (DOL) requesting information on the Occupational Safety and Health Program for the Executive Office of the President (EOP). As I noted in that letter, the White House has a responsibility to set an example for ensuring the workplace safety and health for its employees.¹ Unfortunately, neither the White House nor DOL has responded to this inquiry, raising questions about the White House's commitment to workplace safety.

The administration's failure to address the Committee's request is concerning. Under the *Occupational Safety and Health Act* (OSH Act) and its implementing regulations, the EOP should maintain an occupational safety and health program that complies with standards set by the Occupational Safety and Health Administration (OSHA).² My prior letter made requests for documents that should be on file as part of this program.³ These documents should be easy for either the White House or DOL to provide to the Committee.

On July 21, 2023, OSHA issued a final rule that will require establishments of 100 or more employees in certain industries to submit information electronically from OSHA Forms 300 and 301 once a year.⁴ In this rulemaking, OSHA indicated its intent to publish some of the data collected from these businesses and make it available online in a searchable database.⁵ OSHA also dismissed concerns that third parties could use the published data to mischaracterize an

employer's safety and health record, effectively arguing that the opportunity to target certain establishments was not a flaw but a benefit.⁶

My prior letter asked that the White House and DOL provide the Committee with data from OSHA Forms 300 and 301.⁷ Neither DOL nor the White House has provided a response to my prior letter. Your failure to respond leads me to believe the administration is interested in avoiding the exact sort of public scrutiny that it wants to place on private employers. It is telling that the administration would dismiss concerns about requiring the publication of data from these OSHA forms in order to name and shame private businesses, but then it fails to provide the same information on the EOP to the congressional committee overseeing implementation of the OSH Act.

The Committee has an interest in ensuring that the White House is meeting its legal requirements and the expectations it sets for the private sector. As I stated in my previous letter, the White House should not have a "rules for thee, but not for me" attitude toward workplace safety.⁸ Accordingly, DOL should provide the Committee with the following deliverables requested in the October 11 letter no later than November 30, or I will explore compulsory options.

1. The EOP should have completed OSHA Forms 300, 300A, 301, or equivalent forms and have them on file for all employees. Forms for the previous calendar year must be submitted to the Secretary of Labor by May 1 annually.⁹ Provide all copies of these OSHA forms on file at the White House and DOL for the EOP since January 20, 2021;
2. Provide all annual reports submitted to the Secretary of Labor for the EOP pursuant to 29 U.S.C. § 668(a) since January 20, 2021; and
3. Provide any employee workplace safety complaints filed with OSHA or any office or agency within the White House since January 20, 2021.

Sincerely,

Virginia Foxx
Chairwoman

Responding to Committee Document Requests

1. The agency's response to questions and request(s) should be answered or provided in separate document and not included inside a narrative response.
2. In complying with this request, you should produce all responsive documents that are in your agency's possession, custody, or control, whether held by you or other past or present employees of the executive branch, or a representative acting on your behalf. Your response should also produce documents that you have a legal right to obtain, that the agency has a right to copy or to which you have access, or that you have placed in the temporary possession, custody, or control of any third party.
3. Records, documents, data or information that have been requested and/or are related to underlying requests should not be destroyed, modified, removed, transferred or otherwise made inaccessible to the Committee on Education and the Workforce (the "Committee").
4. If any entity, organization or individual denoted in this request has been, or is also known by any other name than that herein denoted, the request shall be read also to include that alternative identification.
5. The Committee's preference is to receive documents in electronic form (i.e., email, CD, memory stick, or thumb drive) in lieu of paper productions. To the extent responses are provided in paper form, any documents that are stapled, clipped, or otherwise fastened together should not be separated. Documents produced in response to a request should be produced together with copies of file labels, dividers, or identifying markers with which they were associated when this request was issued.
6. Regardless of format, documents produced pursuant to this request should be produced in the order in which they appear in your files and should not be rearranged. Indicate the office or division and person from whose files each document was produced.
7. Regardless of format, documents produced to the Committee should include an index describing the contents of the production and a total page count for the entire production. To the extent more than one CD, hard drive, memory stick, thumb drive, box or folder is produced, each CD, hard drive, memory stick, thumb drive, box, or folder should contain an index describing its contents. Documents produced in electronic format should also be identified and indexed electronically.
8. Electronic document productions should be prepared according to the following standards:
 - (a) The production should consist of single page Tagged Image File ("TIF"), files accompanied by a Concordance-format load file, an Opticon reference file, and a file defining the fields and character lengths of the load file.
 - (b) Document numbers in the load file should match document Bates numbers and TIF file names.

(c) If the production is completed through a series of multiple partial productions, field names and file order in all load files should match.

9. All documents shall be Bates-stamped sequentially and produced sequentially.
10. When you produce documents, you should individually identify the paragraph, question number or request number in the Committee's request to which the documents respond.
11. It shall not be a basis for refusal to produce documents that any other person or entity—either inside or outside of the executive branch—also possesses non-identical or identical copies of the same documents.
12. If any of the requested information is only reasonably available in machine-readable form (such as on a computer server, hard drive, or computer backup tape), the agency's staff should consult with the Committee staff to determine the appropriate format in which to produce the information.
13. If compliance with any request cannot be made in full, compliance shall be made to the extent possible and shall include a written explanation of why full compliance is not possible.
14. If the agency does not expect to produce all documents responsive to a request by the date requested, the agency's staff shall consult with the Committee as soon as it is known the agency cannot meet the deadline, but no later than 24 hours before the due date to explain:
 - (a) what will be provided by the due date;
 - (b) why the agency believes certain materials cannot be produced by the due date; and
 - (c) the agency's proposed timeline for providing any omitted information.
15. If any document responsive to this request was, but no longer is, in your possession, custody, or control, or has been placed into the possession, custody, or control of any third party and cannot be provided in response to this request, you should:
 - (a) identify the document, including its date, author, subject, and recipients;
 - (b) explain the circumstances under which the document ceased to be in your possession, custody, or control, or was placed in the possession, custody, or control of a third party;
 - (c) state how the document was disposed of;
 - (d) identify the name, current address, and telephone number of the person who currently has possession, custody or control over the document;
 - (e) state the date of disposition; and

- (f) identify the name, current address, and telephone number of each person who authorized said disposition or who had or has knowledge of said disposition.
16. If any document responsive to this request cannot be located, identify the document and describe with particularity the efforts made to locate the document and the specific reason for its disappearance, destruction or unavailability.
17. In the event that a document or portion of a document is withheld on the basis of privilege, provide a privilege log containing the following information concerning any such document or redaction:
- (a) Bates number(s);
 - (b) the privilege asserted and the grounds therefor;
 - (c) the type of document;
 - (d) the general subject matter;
 - (e) any other description necessary to identify the document;
 - (f) the date, author, and addressee; and
 - (g) the relationship of the author and addressee to each other.

If a claimed privilege applies to only a portion of any document, that portion only should be withheld and the remainder of the document should be produced.

18. Any objections or claims of privilege are waived if you fail to provide an explanation of why full compliance is not possible and a log identifying with specificity the ground(s) for withholding each withheld document prior to the request compliance date.
19. In complying with the request, be apprised that (unless otherwise determined by the Committee) the Committee does not recognize: any purported non-disclosure privileges associated with the common law including, but not limited to, the deliberative-process privilege, the attorney-client privilege, and attorney work product protections; any purported privileges or protections from disclosure under the Freedom of Information Act; or any purported contractual privileges, such as non-disclosure agreements.
20. Any assertion by a request recipient of any such non-constitutional legal bases for withholding documents or other materials, for refusing to answer any deposition question, or for refusing to provide hearing testimony, shall be of no legal force and effect and shall not provide a justification for such withholding or refusal, unless and only to the extent that the Committee (or the chair of the Committee, if authorized) has consented to recognize the assertion as valid.

21. If a date or other descriptive detail set forth in this request referring to a document, communication, meeting, or other event is inaccurate, but the actual date or other descriptive detail is known to you or other agency employees, or is otherwise apparent from the context of the request, you should produce all documents that would be responsive as if the date or other descriptive detail were correct.
22. The time period covered by this request is included in the attached request. To the extent a time period is not specified, produce relevant documents from January 20, 2021 to the present.
23. This request is continuing in nature and applies to any newly-discovered information. Any record, document, compilation of data or information, not produced because it has not been located or discovered by the return date, shall be produced immediately upon subsequent location or discovery. Such submission shall include an explanation as to why the information was not produced originally.
24. If physical documents are to be delivered, two sets of documents should be delivered, one set to the Majority Staff in Room 2176 of the Rayburn House Office Building and one set to the Minority Staff in Room 2101 of the Rayburn House Office Building during Committee office hours (9am-5pm, unless other arrangements are made) and signed by members of the respective staffs upon delivery.
25. Upon completion of the document production, the agency's written response should include a written certification, signed by the Secretary or his or her designee, stating that:
 - (a) a diligent search has been completed of all documents in your possession, custody, or control that reasonably could contain responsive documents; and
 - (b) all documents located during the search that are responsive have been produced to the Committee.
