

AMERICA FIRST POLICY INSTITUTE

“This legislation represents a clear return to an America First Agenda. President Trump, Chairman Walberg, and other America First members of Congress have been working tirelessly to put America’s recovery back on track, and this legislation does that. This legislation includes commonsense policy solutions that invest in American workers. Expanding Workforce Pell grants to workforce-aligned students and restoring Workforce Pell funding shortfalls help improve workforce training at all levels. Student loan limits, income contingent repayment, performance-based “PROMISE” grants to institutions, and reversing the Biden-era illegal student loan forgiveness activities are policies that work to create a drastically more affordable 4-year college degree.”

- Michael Shires, Ph.D., Vice Chair of Educational Opportunity for the America First Policy Institute
