

Jewish Students for America Statement on the DETERRENT Act.

Jewish Students for America was founded on the idea that pragmatic policy solutions are required to alleviate antisemitism and strengthen America. One of our main goals has been targeted financial reform. The DETERRENT Act represents the culmination of over a year of working with members of Congress and staffers. The Act will increase transparency and heighten the scrutiny of foreign funds pouring into our universities. No longer will Americans be held in the dark while foreign countries peddle their influence. We have a right to know who is funding these universities and what favors they are demanding in return for their "generous" donations.

This bill is a *win for America*, and we want to thank the various teams involved in carefully constructing this Act. We thank Representative Baumgartner and Chairman Walberg for introducing this bill and warmly extend our gratitude to Representative Foxx, who worked closely on this issue last year. We would also like to recognize the House Education and Workforce staffers for working with us to expand the coverage of the first iteration of the DETERRENT Act.

We look forward to continuing our work with the Senate to get this act to President Trump's desk.

Sincerely,

Gideon Askowitz

President of Jewish Students for America
